

Hands-On R Labs - R Fundamental and Statistical Analysis for Beginners

Course code: TGS-2019504058 | Version v15.0

Open each lab folder separately in RStudio. Every folder contains a detailed guide, an R script, a verification script, an Excel intake/control/evidence workbook and CSV fallback data.

- [Lab 1: Your First Reproducible R Script](#) - Foundation | LO1 | K4 | A2
- [Lab 2: Help, Objects and Session Diagnostics](#) - Foundation | LO1 | K4 | A2
- [Lab 3: Vectors, Indexing and Missing Values](#) - Foundation | LO2 | K3 | A5
- [Lab 4: Data Structures and Factors](#) - Foundation | LO2 | K3 | A5 | A9
- [Lab 5: Packages and Built-in Datasets](#) - Intermediate | LO3 | K3 | A2
- [Lab 6: Import, Validate and Export Weather Data](#) - Intermediate | LO3 | K6 | A2 | A5 | A9
- [Lab 7: Base R Chart Selection](#) - Intermediate | LO4 | K3 | A3 | A4
- [Lab 8: Compare Distributions with Boxplots](#) - Intermediate | LO4 | K5 | A3 | A4 | A7 | A10
- [Lab 9: Conditions, Loops, next and break](#) - Intermediate | LO5 | K6 | A7 | A9
- [Lab 10: Build and Test Reusable Functions](#) - Intermediate | LO5 | K7 | A7 | A9
- [Lab 11: Descriptive Statistics, Correlation and Regression](#) - Advanced | LO6 | K1 | K2 | A1 | A3 | A4 | A6
- [Lab 12: Hypothesis Testing and ANOVA Capstone](#) - Advanced | LO6 | K5 | A1-A10
